

Guidance for SA School VET Coordinators Regarding School Student Referral to VET Form for Flight One School of Engineering Certificate II in Aeroskills at Adelaide Airport.

We are delighted to have received an application from one of your students to enrol in our high school MEA20418 Certificate II in Aeroskills.

This course is funded by the South Australian Government, supported by industry, and delivered at Flight One’s Engineer Training Centre at Adelaide Airport one day per week during term to eligible year 11 and 12 students.

Full course details are available here: flightone.edu.au/courses/high-school-aircraft-engineer-programme-south-australia.

To assist us in assessing the student for eligibility for this funded programme, we will need to ask the school to submit a School Student Referral to VET Form (<https://providers.skills.sa.gov.au/school-student-referral-to-vet-form>). We may also contact you to see if you are able to assist with administering the SA Government mandated LLN test.

Please find following some notes we have compiled to assist you with initiating the VETRO process.

Form Field / Question	Recommended Answer
Training Provider Representative Contact Information	
Training provider RTO number	45165
Training provider name	Flight One Education Pty Ltd 45165 t/a Flight One School of Engineering; OR Aeroskills School of Aircraft Engineering; OR Cortex Learning

Select one or more of the following three categories to indicate what eligibility evidence has been uploaded with this referral form	(checkbox) Relevant SACE curriculum-based project work or industry immersion activity.
Evidence the student has completed a preparatory VET pathway must be provided to the training provider with this referral to support their assessment of eligibility*.	Please upload the student’s evidence of undertaking industry immersion activity. See below for details.
<div style="border: 1px solid #ccc; padding: 5px; display: inline-block;"> Upload or drag files here. </div>	

Industry immersion activity.

To be eligible to enrol, students are required to have undertaken an industry immersion activity to ensure that they are well informed. This is a requirement for the funding associated with the programme.

Following are the options to meet this requirement. Evidence of one of the options should be uploaded in VETRO Form A.

1. *Come & Try Day Registration Evidence*

Students who register for Come & Try Day receive a confirmation email and an Eventbrite ticket. These may be used as we take attendance at the events.

2. *Flight One Come & Try Day Attendance Certificate.*

A brief letter from the school explaining how the requirement will be met is also sufficient.

3. *Letter of Participation from Industry / Workplace Letter*

Evidence of another relevant activity such as an airport tour, visit to aviation facilities, work experience, internship, family involved in aircraft maintenance, etc. may be used. A letter of participation, or contact details need to be provided so we can check that it meets the requirements. It is also acceptable for the school to provide this confirmation letter.
